IMPORTANT!! THE BACKDOOR LAW THAT SABOTAGES INTERNATIONAL ROMANCE Dear Clients, please try to buy all addresses you need and spend all your addresses credits before March 1, 2006. Dear Non-USA clients, try to spend your addresses credits and mail-forwarding funds and establish a direct contact with the lady of your choice before this date. We won't be able to serve non-USA clients since March 2006 when most of the law's provisions go into effect. The law's intent is honorable, but it makes impossible for us to serve Non-USA clients after March 6 and serving USA clients is becoming much more complicated. According to this new law, we are required to check the National Sex Offender public registry and state public registry for each specific U.S. client, and to gather mandatory background information and documents on that particular U.S. client's past criminal history, including prostitution offenses, past domestic violence history, past marital and divorce history, past visa petition history, ages of any children under age 18, and all states and countries where the U.S. client lived since age 18. We must then provide that information to the lady in her native language and secure a signed, written consent from her before releasing her personal contact information to that specific U.S. client.

Please go to this page and sign the petition against this law.
